

SCHOLARSHIP APPLICATION

Team Make a Difference is a non profit charity that was started to help people in need, a “Hero”, specifically a child or adult who is ill, whether physically, mentally, or emotionally, by creating a dream room for them. This space is considered their special space within their home, where they spend most of their time. We want to give them the space to heal and regain strength and hope. We believe in helping others by making a difference in their life in any way you can.

One (1) scholarship in the amount of \$500.00 is offered to any high school senior in Grundy or Will County to go towards college or technical school tuition (post high school). The student must have a 3.0 GPA or higher, a letter of recommendation, a completed application, and write a short essay. No relative of board members from Team Make a Difference is eligible. Checks will be directly sent to the recipient’s institution.

The essay should be 400-500 words explaining how you have helped others and how you feel you have made a difference in the world. Also, how/if you will continue to make a difference. Attach your essay to this application form along with a letter of recommendation.

Application must be postmarked by April 30th, and winner will be notified by June 10th. This scholarship is merit based and not renewable. The winner’s name will be posted on our website www.tmadifference.com.
